

COMPARE to CLUB Z

SLS SYSTEM – STUDY SKILLS for Your Success in School
No Matter: the Class..., the Teacher..., the School..., the Grade...
www.yoursuccessinschool.com

SLS compares well with the Club Z study skills program. Club Z is a nationwide tutoring program where tutors most often go to your home. It is a franchise so most programs are independently run, not nationally controlled though they have standard approaches to tutoring.

As part of the tutoring services, Club Z has a study skills presentation, which they charge extra for.

The **following is a comparison** of the areas that are covered in Club Z study skills and SLS System. You can see how the topics match with each other. Club Z picked these topics below as the important areas that are important to know about study skills. This information is from Club Z publications.

Review
15 – 30 hours for the special class

These study skills are part of Club Z tutoring
which costs much more

We don't have specific cost comparisons now for the Club Z Study skills classes or for Tutoring services
Generally **tutoring for most programs cost about \$20 – 30** per session or hour.

Getting one-on-one attention is very helpful for some students to help students get their grades up in
some subjects. Most tutoring has a time limit, because of money a parent pays or how long students can
use school services.

Once a student's grades are up, **they can use SLS Study Skill System** to keep grades up and improve
how they handle school subjects – web sites that help them with school subjects, SLS Articles, Audio &
Video Files and SLS Products. SLS helps prepare students for good higher education training

SLS also **gives you so many more study skills and strategies** than are covered in Club Z or many other
study skill programs attached to a tutoring program or run independently. SLS also **gives students school
subject help** and up to date information about how they can plan their future.

Students need **help with some school subjects**. **Tutoring helps** them get over a hump, get back on track, deal with learning problems and it does not have to last long. Not all students can get tutoring help or they may not be able to get it right away when they need it.

SLS puts the tools in the hands of students and parents to give them the **Responsibility, Power and Control of Student Success**, no matter what kind of teacher or professor a student has, the subject they study or school they attend.

SLS System **helps parents** work with students to get good grades, get into good schools and higher education training and prepare for the rigors of higher education to get a certificate, license, degree or certification

Once students are back on track with school subjects, SLS helps students continue to learn school subjects well and feel confident when new academic challenges and demands come their way. SLS helps students as they advanced through higher education.

SLS also **gives students a Toolbox with many web sites, web apps and tools, articles, audio and video clips** for **all the years they are in school** to support them and help them get ready to advance to the next grade level. SLS is there for students **24/7, 365!**
